

# Mentorship York

**Get to the Next Step!**

Mentorship York allows emerging leaders the chance to meet with reputable leaders in an intimate setting; asking questions or simply listening to their advice of how to be successful. Established leaders look forward to connecting with these ambitious young people to share their experiences because they want to ensure the future of York is led by successful men and women who remember the heritage of our area.

## Program Highlights

Mentorship York provides multiple opportunities for Mentees and Mentors to develop relationships and learn from each other.

Mentors and Mentees commit to meeting at least six times with each other one-on-one during the calendar year. In addition, each Mentor hosts the entire group of Mentees for a breakfast or lunch. These twelve gatherings include time for the Mentor to present information on a topic, opening the door to thoughtful dialog with Mentees and opportunities to make connections with each other.

*"I am currently reevaluating my 5 and 10 year career plans, and making sure I have the things in place to make them successful."*
